NUMBER ONE FOR PLANT HIRE  
OPERATED AND SELF DRIVE HIRE

To: PTS Cardholders

Date: 21<sup>st</sup> July 2010

## DOCUMENT BRIEFING

### NEW Railway Rulebook Modules

The following new Rulebook modules and Handbooks came into force during June 2010. The relevant changes are summarised in this document.

#### What's New?

Document Number and Title	Standard Type	Main Changes
Module G1 – General safety responsibilities and personal track safety for non-track workers	Rulebook	Now needed by all OTP Operators as personal issue, copies have been ordered. This contains general safety information on the infrastructure and covers your responsibilities when walking on the infrastructure.
Handbook HB2 – Instructions for track workers who use emergency protection equipment	Rulebook	A new Handbook issued as part of the New Approach to the Rulebook. Now issued to each OTP Operator as this grade of competency requires you to be competent at placing emergency protection to a line if required and working alone (catch and dispatch).

All the above modules have been uploaded to the Staff Information Portal on the Readypower website.

Your copies of the modules are enclosed, please complete and return the acknowledgement slips to Angela Sol, Compliance Administrator.

By Post: 52-56 Longshot Lane  
Western Industrial Estate
