LEAF FALL ALERT

Know your area

Alter Your Driving

Adjust your braking

Report Immediately

V

Let's not forget all the work that the industry has done over the last few years and use the lessons learnt to ensure we are not caught out during the coming leaf fall season.

Stay **ALERT**, Keep **FOCUSED**, drive accordingly and report **IMMEDIATELY** any **ADHESION** related problems to the signaller.

Let's not turn leaf fall days into **SPAD** days

Remember your immediate action can and will help prevent adhesion related **SPAD** incidents.
